About the Trainer.....
Vince Rambala grew up with dogs and in 1992 he took his love for animals to become a Professional Dog Trainer.

Tired of seeing and reading about abusive trainers, he adopted a method of training using a gentle positive reinforcement. The equipment used during class are all light weight nylon leashes and collars, **NO** chains or German Prong collars. Vince uses the animal's natural behavior to achieve positive responses. Vince is also a Certified New Jersey Animal Control Officer and a member of APDT.
